## Newsletter 20<sup>th</sup> March 2026

### From the Headteacher

Dear Parents/Carers,

This week we have had lots going on at Potton Primary School.

On Tuesday morning and this morning we welcomed parents/carers of our children that take part in Rocksteady into school to watch their end of term concerts. The children performed brilliantly, I hope they all enjoyed showcasing their bands.

On Tuesday and Wednesday after school we held Parents evenings. I hope you found your time with your child's/children's teacher informative and useful.

Thank you for the donations for the School Council's cake sale on Wednesday. The next sale will be on 29<sup>th</sup> April, where we will be asking children from our Year 4 classes to bring in cakes to be sold by the School Council after school. Further information will be sent out closer to the time.

On Thursday we had our SEND Coffee Afternoon, where we welcomed both Sandy and Biggleswade Children's Centre and Sandy/Biggleswade Mental Health Support Team. We hope those of you that came found the afternoon to be useful.

#### Next Week.....

Our Year 4 classes go on their residential trip to Grafham. I am sure the children and adults that are attending will have an amazing time. I look forward to receiving updates during the week and I hope to pop over to say hello too!

On Tuesday next week we have our Year 3 Learn together afternoon where parents/carers/grandparents are invited into school to take part in activities with their children related to their topic on Antarctica.

On Wednesday it is our Year 6 "Evacuee Day" where the children will be taking a deep dive into life during World War Two as an evacuee. This will include the children coming into school dressed as children from the 1940s and they will be making their own gas mask boxes and air raid shelters.

On Thursday we have a Year 6 SATS Parents information session after school. I look forward to welcoming parents/carers of our Year 6 children where they will receive further information regarding the SATS which will be taking place in May.

Finally, in light of the recent meningitis outbreak in Kent we have been sent some information from the Local Authority regarding the signs/symptoms of meningitis and the things to look out for - please see the information below.

Wishing you all a lovely weekend  
Kindest regards  
Miss J Watts  
Headteacher

At National Online Safety we believe in empowering parents, carers and trusted adults with the information they need to hold an informed conversation about online safety with their children, should they feel it is needed. This guide focuses on one platform of many which we believe trusted adults should be aware of. Please visit [www.nationalonlinesafety.com](http://www.nationalonlinesafety.com) for further guides, hints and tips for adults.

## SUPPORTING CHILDREN'S MENTAL HEALTH

### 10 Conversation Starters for Parents

Talking about mental health to children is sometimes hard. To the point that we can put off raising the subject, not wanting to unearth problems or raise overwhelming subjects that we perceive our child is too young or not ready for. But rather than keeping children in the dark, this guide is designed to help you confidently talk about mental health, so they feel comfortable talking about their own worries and end any stigma before it begins.

**NOS National Online Safety**  
#WakeUpWednesday

- 1 LISTEN**  
This sounds obvious, but it is not something we are always great at. Active listening is where we listen without interrupting or making judgements and show interest in what is being said. If your child feels listened to in the 'smallest of problems' they will become confident that you will listen when the 'biggest of problems' arise.
- 2 ASK TWICE**  
The campaign from time to change is great. <https://www.time-to-change.org.uk/support-substance-campaign>. Be tenacious about your child's wellbeing. Children instinctively know when your questions and support come from a place of wanting to help and care.
- 3 THERE IS NO SUCH THING AS A STUPID QUESTION**  
This advice also relates to the first point. If your child can ask you any questions about the small set of things and you listen and answer without shaming or belittling, then they will have more confidence to ask the biggest of questions.
- 4 BE OPEN AND HONEST**  
Children appreciate honesty, particularly if you are having to share information or talk about a difficult subject. For example, you may be talking about death or loss. In every culture there has died or I feel sad that Hannah has died. How you talk about a subject will differ depending on their age and developmental maturity. Talking about death to a younger child for example will be different to that of an older teen, as their experience and understanding of death is different.
- 5 KNOW WHEN TO SEEK HELP**  
Assess the severity of the mental health difficulty you are noticing. Is the difficulty making it hard for your child to function regularly throughout everyday life? How frequently is your child affected, how long does it last and how persistent is it? Are they having problems controlling the difficulty? Talk to your child about your concerns and that it is likely they will need further support beyond family and friends.
- 6 TALK ABOUT MENTAL HEALTH NATURALLY**  
Speak about mental health as part of everyday life, so that talking about our feelings and those of others is normalised. If the usual 'are you ok?' is not creating an opportunity for dialogue then say something like 'I know when something like that has happened to me I felt like this... is that how you are feeling or are you feeling something else?'
- 7 EMPATHISE**  
It is also sense that you would feel this way. It is understandable. Children often worry about things that we, as adults, might see as trivial or silly. However, for them at their age and stage it is a big concern and they need our kindness and care when they show their vulnerability and share their worries.
- 8 HELP YOUR CHILD FEEL SAFE**  
Teens particularly feel that by talking about their worries or concerns that this will make things worse. Reassure your child that you will discuss a plan of action together and what may or may not need to happen next. If they are a younger child, it is likely you will need to lead the conversation and explain next steps.
- 9 MIND YOUR LANGUAGE**  
Be mindful of the language you use at home to describe and talk about mental health. Stigma often arises from misconceptions and a choice of language which is harmful. Using the word 'mental', 'man up' or other such words in a derogatory way won't encourage your child to talk about their mental health for fear of being belittled.
- 10 IT IS OK TO SAY 'I DON'T KNOW WHAT TO DO NEXT'**  
Adults do not have all the answers but often children think they do. It is ok to acknowledge that what your child is experiencing is not something you have come across before or know anything about, but that you will work it out together and seek help together.

# Potton Primary School PTFA Event

On Saturday the 21st March the PTFA will be hosting their annual Easter Egg Hunt. This is always a popular event and the PTFA are in need of some volunteers to help on the day. Volunteers will be asked to cover either 12:30–3:00pm (including set-up) or 3:00–4:30pm (including clear-up). This means everyone will still be able to enjoy the hunt with their children. If you are able to volunteer, please email [PTFA@pottonprimary.co.uk](mailto:PTFA@pottonprimary.co.uk). Without volunteers, we cannot run these events.

We are also hoping to run a Teddy Tombola at the Easter Egg Hunt. Therefore, if you have any teddies that are in a good condition to donate we would welcome these.

There will be a cake sale at the event and if you are able to make a donation of nut-free cakes these would be very much appreciated.

Any donations can be dropped off at the school office.

## Nutrition & Hydration Week

16 - 22 March

### Is your body getting enough water?

Not drinking enough water doesn't just cause thirst, it can affect kidney health and lead to toileting problems and infections in children and adults.

<https://www.nutrition.org.uk/additional-information/hydration/>

#StayHydrated

### Feeling tired, grumpy or headachey?

It might be dehydration. Hydration supports physical health, concentration and wellbeing.

### Did you know?

Even mild dehydration can affect memory, attention, mood and energy in children. Encourage regular sips throughout the school day!

 [facebook.com/bedscyp/](https://facebook.com/bedscyp/)  @bedscyp 

## Nutrition & Hydration Week

### Why hydration matters

Hydration is essential for:

- Brain function
- Energy levels
- Learning and concentration
- Physical performance
- Emotional regulation
- Overall wellbeing

Because children have higher fluid needs relative to body weight and may not recognise thirst early, they are more vulnerable to dehydration – especially during active play, warm weather, sports, and busy school days.

### Cognitive impacts of dehydration

Even mild dehydration can cause:

- Reduced concentration
- Poor memory retention
- Slower thinking
- Difficulty solving problems
- Lower alertness and reaction time
- Increased confusion and irritability

Your brain is 75% water! Keep it topped up to stay alert.

### Physical health impacts of dehydration

1. Low energy and fatigue
2. Headaches and migraines
3. Dizziness and light-headedness
4. Overheating and poor temperature regulation
5. Muscle cramps and weakness
6. Dry lips, skin and eyes
7. Digestive problems
8. Increased heart rate
9. UTIs and kidney strain
10. Reduced immunity and wellbeing

Water helps your body work, move, think and feel good!

### Key messages

Children and young people:

- Water helps your brain learn faster
- Sip throughout the day
- Bring your water bottle everywhere

Parents and carers:

- Encourage water with meals and before bed
- Promote water and limit sugary drinks

School staff:

- Allow and encourage water bottles on desks
- Build hydration breaks into daily routines
- Observe signs of dehydration in tired, irritable or unfocused pupils
